PROFILE SUMMARY

Senior Flutter Developer with 3+ years shipping production Android/iOS apps. Lead mobile engineer at CabsWale (**500,000+ downloads**, **20,000+ DAU**, **99.8% crash-free**); strong in AI voice assistants, Clean Architecture and Firebase. Seeking a senior mobile role in AI products.

WORK EXPERIENCE

CabsWale – Senior Flutter Developer
May 2024–Present ▪ Gurugram, India

Promoted from Flutter Developer in Apr 2026

- Led development of the CabsWale Partner and Customer apps (Android & iOS): **500,000+ downloads and drivers**, **20,000+ DAU**; own architecture and releases.
- Architected both apps on **Clean Architecture** with modular feature packages and BLoC, improving reuse, testability and onboarding.
- Engineered **Raahi AI**, a voice-first driver assistant: speech-to-text, LLM-backed APIs and spoken replies over LiveKit/WebRTC, routing intents to nearby drivers, routes and fraud checks.
- Deployed an open-source text-to-speech model for Raahi AI voice replies.
- Managed the transport-services vertical (challans, insurance, border tax, state tax, AITP) from API design to release.
- Improved stability to **99.8% crash-free** and cut **Firebase costs by 50%** via Crashlytics monitoring and optimized Firestore reads/writes.

Build with Innovation – Flutter Developer Intern
Nov 2023–Apr 2024

- Delivered features for **Organic Tap** (5,000+ users) and **MeWe**: reusable UI and REST integrations.

Shortsqueeze (PodiumPe) – Software Development Engineer Intern
Sep 2023–Feb 2024

- Built Flutter features and REST integrations for **PodiumPe**, the first racing fantasy game in India.

Idea Usher – Flutter Developer Intern
Apr 2023–Sep 2023

- Executed Flutter features, Firebase integrations, bug fixes and Play Store releases.

PROJECTS

Border Tax Online – Flutter, Firebase
2026

- Launched a platform for taxi, bus and truck operators for **border tax**, **state tax and AITP** quotations and PUC certificates, in **11 Indian languages**.
- Implemented vehicle registration, border selection, pricing, payments, status tracking, digital receipts and an admin console.

Forms24 – Flutter, Firebase
2026

- Created a government-paperwork assistance app for West Bengal residents: **100+ services** across transport, identity, welfare, education and tax, so users skip queues.

Bornomala AI – Flutter, Firebase, BLoC, Speech, TTS
Feb 2026–Apr 2026

- Developed a Bengali learning app for children with **13 interactive modules** (speech recognition, drawing, math games, stories), streaks and rewards.
- Achieved **1,000+ downloads** and 50+ DAU with zero marketing spend.

SKILLS

AI & Voice	LiveKit, WebRTC, speech-to-text, text-to-speech, LLM APIs, ML Kit
Mobile	Flutter, Android, iOS, Clean Architecture, BLoC, Provider, GetX, REST APIs, push notifications
Backend & Data	Firebase (Auth, Firestore, Functions, Crashlytics, Remote Config), Node.js, PostgreSQL, Typesense
Languages	Dart, Kotlin, Java, JavaScript, TypeScript, Python, Go, SQL
Tools & Web	OTPless, Razorpay, Git, Xcode, Figma, React, Next.js

EDUCATION

Maulana Abul Kalam Azad University of Technology
2021–2025 ▪ Kalyani, West Bengal

B.Tech, Computer Science and Engineering ▪ CGPA 7.78/10

OPEN SOURCE & ACHIEVEMENTS

- Published **Glossy**, an open-source Flutter package on pub.dev: **115+ likes**, 140/140 pub points.
- Solved 100+ LeetCode and 250+ GeeksforGeeks problems; 3★ on CodeChef.
